

DAVALOR Mold Company, LLC

Environmental Policy

(PL-05 01/24/2025 Rev 5)

DAVALOR Mold Company, LLC, as an injection molding company that is committed to growth and profitability, recognizes that environmental stewardship is a critical to achieving those goals.

We are committed to an environmental strategy that is proactive and focused on minimizing the environmental impact of our company.

We understand the scale of and the potential impact of our activities, products and services.

We are committed to complying with and fulfilling all relevant local, state, federal environmental regulations and other applicable requirements so as to be recognized as an environmentally concerned company.

We will evaluate the impact of our plastic molding and tooling operations continually so as to set objectives and targets for improving our conservation of energy, natural resources and the prevention of pollution... thus minimizing our environmental impact.

Our documented **Environmental Management System** is part of DAVALOR's standard business practice and is communicated throughout all levels of the organization.

A handwritten signature in black ink, appearing to read 'Scott Osterling'.
